

NEPAL

KATHMANDU, HIMALAYAN FOOTHILLS & CHITWAN JUNGLE COMMUNITIES

Our Partner Orphanage & Christian Fellowship in Kathmandu

Welcome!

Excellent Christian hospitality & homestay...

Christian Fellowship above

Pastor David's Church was rebuilt after the 2015 earthquake

There are many projects to choose from when staying with Pastor David and his family or friends. There is the orphanage and Church...

Destitute street young adults work...

Feed them, talk with them, help develop a drop in centre for them!

... where they can wash, spend the night, have a change of 2nd hand clothes, be fed...

Help them work into a new life...!

Small improvements make a big difference and we hope to be able to provide these young adults with the option of a Drop-in Centre soon and continue to help them to

improve their situation

CTBI Christians Abroad

Help local christians with their city farming...

And learn new skills too!

Live with a Nepali Christian community whose home is in the Himalayan foothills

where Pastor David is helping them to...

CTBI Christians Abroad

Rebuild and recover after the 2015 earthquake

Have their own church and help them in their christian discipleship

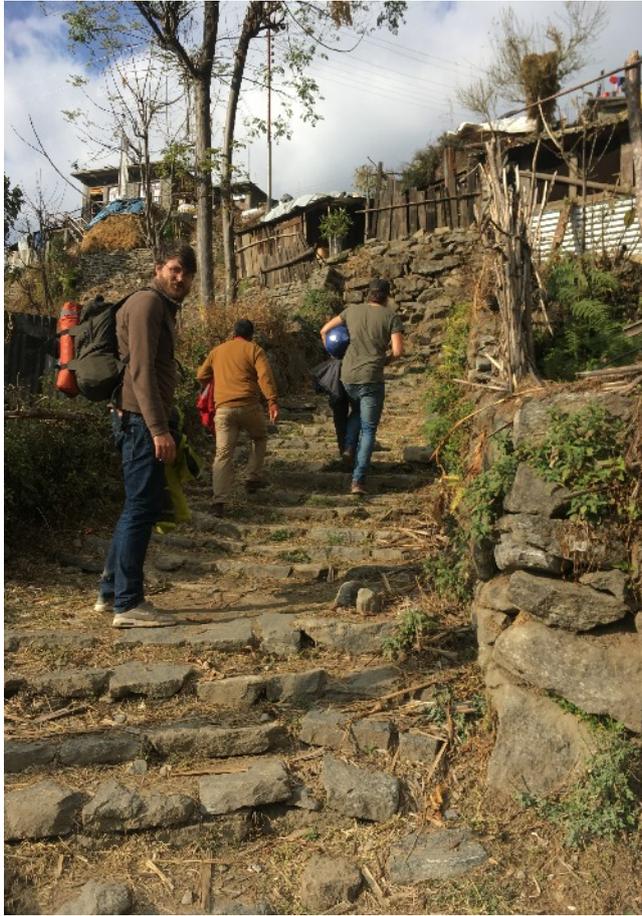

Help them overcome leprosy and alcohol addiction, as some of these local Christians have suffered from and found strength in Christ and access to Kathmandu medical facilities through the prayers and outreach of Pastor David's church...

We now have a good link up with the leprosy mission in Nepal to help develop this work further along with new community education opportunities too

Local villagers

Lots of trekking and exploring to be done with pastor david's trainee village Pastor Eshan - he knows the hills and all the trails...

Good opportunity for time off work!

Pastor Eshan is helping to rebuild his village and his church is about 30 strong...

Opportunity to learn about traditional farm techniques too...

... and time to relax, reflect and soak in the view and clean mountain air!

Basic homestay, but well worth the effort... so much to learn about and help with...

There is also a secondary school placement nearby available...

Then there is opportunity to go to Pastor David's father's home near the border with India...

His father had leprosy, was excluded from his village, went the leprosy mission in Pokhara and was healed, served leprosy sufferers for around 20 years, became accepted by his village once more, was the first christian in his community, now there are over 3,000 in his neighbourhood...

Lots to listen to and learn about and get involved in...

Learn about village farming techniques... help them develop eco-tourism...

Enjoy jungle treks and jungle nights... help in the village school...

Get involved in community life and christian fellowship too!

Both hindus and christians get on well together... it's amazing how doing good works helps bring about peaceful communities...

Great hospitality... homestays are basic but all you need...

And there is the opportunity for an internship with a national nature reserve authority for the right individual who is studying or has studied environmental science, ecology, natural resource management and such like...
